# PUBLIC NOTICE (10 of 2020)

Sub: - Lockdown period not to be included while computing novelty for new varieties under Section 15(3)(a) of PPV&FR Act, 2001- Extension of time limit for registration of extant varieties - Supersession of earlier Public Notice No.5 of 2020-Reg.

Due to worldwide and nationwide lockdown to contain COVID-19, numerous difficulties have been expressed in computation of period of novelty in the case of new varieties and also to extend the time for filing of registration of extant varieties. With a view to resolve this, a self-contained public notice is issued in case of both within India and outside India.

#### a) WITHIN INDIA -NOVELTY

In cases of submission of application for registration of new variety in India where the period of novelty terminates during the period of lockdown (beginning from 25.03.2020) then the period of novelty in respect of such varieties will be computed till 15 days after the lifting of lockdown.

#### b) OUTSIDE INDIA-NOVELTY

In cases of varieties from outside India, where period of novelty terminates during the period of lockdown in India or outside India, then in such case the novelty would be computed 45 days from the lifting of lockdown, within India or outside India, whichever is later.

In case of varieties from outside India time taken for regulation/SPS/Quarantine during the period of lockdown would also be accommodated on case to case basis by the Registrar based on the documentary evidence.

In cases of varieties from outside India, the restriction within India or outside India, if any, relating to cargo movement or opening, then such cases also would be accommodated on case to case basis by the Registrar based on the documentary evidence but not exceeding 45 days to the latest material transport allowed date in the logistics/regulations, whichever is later.

#### c) EXTANT VARIETIES-TIME LIMIT FOR REGISTRATION-WITHIN INDIA:-

In case of extant varieties within India if the time limit for filing the same falls during the period of lockdown (beginning from 25.03.2020), then the time limit for filing the same will be extended till 15 days after the lifting of lockdown.

#### d) EXTANT VARIETIES-TIME LIMIT FOR REGISTRATION-OUTSIDE INDIA:-

In cases of extant varieties from outside India, if the time limit for filing the same falls during the period of lockdown in India or outside India then in such case the time-limit would be extended 45 days from the lifting of lockdown, within India or outside India, whichever is later.

In case of varieties from outside India time taken for regulation/SPS/Quarantine during the period of lockdown would also be accommodated on case to case basis by the Registrar based on the documentary evidence.

In cases of varieties from outside India, the restriction within India or outside India, if any, relating to cargo movement or opening, then such cases also would be accommodated on case to case basis by the Registrar based on the documentary evidence but not exceeding 45 days to the latest material transport allowed date in the logistics/ regulations, whichever is later.

This public notice is issued in supersession of the earlier public notices in this regard.

(Ravi Prakash) Registrar

Date: 14th August, 2020

#### **OFFICE ORDER**

Sub: Constitution of "Extant Variety Recommendation Committee" at PPV&FRA, New Delhi.

The Protection of Plant Varieties and Farmers' Rights Authority, New Delhi has constituted the "Extant Variety Recommendation Committee" in accordance with Regulations 6 of PPV&FR Regulations, 2006 to examine and recommend the proposal for registration of Extant Varieties notified under the Seeds Act, 1966 as per the provisions of the Section 28 of PPV & FR Act, 2001.

The term of reference and mandate of the EVRC would be to recommend under PPV&FR Act, 2001, the registration of Extant Varieties Notified under Section 5 of Seeds Act, 1966.

The composition of the constituted EVRC committee is as follows:

|    |  | 1        |

The terms and Reference of the Committee are as under:-

- 1. Evaluate, assess and recommend the applications for registration of extant variety notified under Section 5 of Seeds Act, 1966 as per regulation 6 of PPV&FR Regulation, 2006.
- 2. Finalize time period for processing applications, grant of Certificate of Registration and validity period for Certificate of Registration for extant varieties which have been notified under Seed Act, 1966.
- 3. Advice on the matter related to the amount of seed to be supplied, place of repository, nature and quality of seeds received for extant varieties etc.
- 4. Any other issue related to extant variety registration referred by the Authority.

The other terms of the Committee are as follows:-

- 5. The Committee members shall be entitled to get TA/DA and sitting charges as per the norms of PPV&FR Authority.
- 6. The periodicity of the Committee meeting will be based on the quantum of the work in terms of applications received by the PPV&FR Authority.
- 7. The Extant Variety Recommendation Committee meeting will be held a place to be decided by the Chairperson of the Authority.
- 8. The Committee shall have three years tenure from the date of approval (14.08.2020 up to 13.08.2023).

This issues with the approval of Competent Authority.

(T.K.Nagarathna) Registrar

#### **Distribution:**

To Chairman and All the Members of the EVRC

#### Copy to:-

- 1. The PS to Chairperson, PPV&FRA
- 2. All Registrars
- 3. Joint Registrar
- 4. All Deputy Registrars (Including Branch Offices) with a request to DR (UKD) to upload the order in the website of the Authority and publish the same in PVJ
- 5. Admin Section/Legal Section /Finance Section
- 6. Guard file in Registrar Office

#### **PUBLIC NOTICE**

Subject: Advertisement is given under sub-section (2) and (3) of Section 21 of the Protection of Plant Varieties and Farmers' Rights Act, 2001 and Rules 30 and 31 of PPV & FR Rules, 2003.

The passport data of each variety furnished by the applicant are herewith advertised as specified for calling objections from any persons.

The place or places where the specimen of the variety may be inspected can be obtained in writing from the Registrar of the PPV & FR Authority.

Any person may, within three months from the date of advertisement of the application(s) give notice of opposition in writing to the Registration of variety (as per Form PV-3 of the First Schedule of PPV&FR Rules, 2003). Oppositions, if any, to the Registration must be submitted, in triplicate, to the Registrar, PPV&FRA, NASC Complex, DPS Marg, New Delhi -110 012 accompanied with the fee of Rs.10,000/- (Rupees Ten Thousand Only) by way of Demand Draft drawn in favour of "PPV & FR Authority" payable at New Delhi.

\*Farmer(s) are exempted from payment of any fee in proceeding under Section 44 of PPV&FR Act, 2001.

## FORM O - 1 (See Rule 30) Government of India, Plant Varieties Registry

1. Application No. F1 AI 1 17 66 filed on 08.02.2017 by Executive Officer, Shri Saibaba Sansthan Trust, At/post-Shirdi, Tal: Rahata, Dist: Ahmednagar-423109, Maharashtra on behalf of Shri Saibaba Sansthan Trust, At/post-Shirdi, Tal: Rahata, Dist: Ahmednagar-423109, Maharashtra for Farmer variety of crop Neem (Azadirachta indica A. Juss.) having denomination GURUSTHAN NEEM has been accepted and given registration number -----NA ------- NA ------- NA -------, in respect of the said variety has been filed on -----NA------, in ---NA-----.

Appropriate office for the opposition of proceeding under Rule 29, of the Protection of Plant Varieties and Farmers' Rights Rules, 2003 is Office of the Registrar, PPV & FR Authority, New Delhi – 110 012.

Passport data of the variety: GURUSTHAN NEEMApplicant: Shri Saibaba Sansthan Trust

**Address of the applicant** : At/post-Shirdi, Tal: Rahata, Dist: Ahmednagar-423109,

Maharashtra

: Indian

Nationality of applicant

**Application details** 

a. Number : F1 AI 1 17 66

b. Date of receipt : 08.02.2017

c. Date of acceptance : --

Crop (taxonomical lineage) : Neem (*Azadirachta indica* A. Juss.)

Denomination : GURUSTHAN NEEM

Type of variety : Farmer Classification of variety : Typical

Previously proposed

Denomination : Not applicable Source of parental material : Own germplasm

Name of reference varieties : Athani, Dharapuram, Mettupalayam

Variety description:

| A. Grouping characteristics             | Remarks (measured values) |
|---|---------------------------|
| Leaflet shape (Characteristic 6)        | Falcate                   |
| Flower: Petals shape (Characteristic 8) | Spatulate                 |
| Fruit shape (Characteristic 11)         | Globular                  |

| Fruit: Shape of apex (Characteristic 12)   | Round                                   |  |  |
|--|---|--|--|
| Seed: Shape (Characteristic 18)  | Ovate                                   |  |  |
| Seed: Tip (Characteristic 19)  | Acute                                   |  |  |
| B. Distinct characteristics of candidate variety:  |   |  |  |
| GURUSTHAN NEEM has distinguishing characters as sprea  | ading tree habit, globular fruit shape. |  |  |
| C. Distinct characteristics of reference varieties:  |   |  |  |
| Athani has distinguishing characters as semi-upright tree habit, globular fruit shape.  Dharapuram has distinguishing characters as upright tree habit, oval fruit shape.  Mettupalayam has distinguishing characters as spreading tree habit, oblong fruit shape. |   |  |  |
| D. Date of commercialization of the variety  Not commercialized  |   |  |  |
| E. Agronomic and Commercial attributes   |   |  |  |
| Regarded conserved as a unique mother tree symbolic of the Shirdi Shrine traditionally, a value by common perception in the community.   |   |  |  |

Appropriate office for the opposition of proceeding under Rule 29, of the Protection of Plant Varieties and Farmers' Rights Rules, 2003 is Office of the Registrar, PPV&FR Authority, New Delhi – 110 012.

Passport data of the variety

Applicant: Dehangi (AAUDR 9313-14-3) IET-18243 IC- 574471

: Assam Agricultural University Jorhat-785013 Assam.

: Director of Research, Assam Agricultural University

Jorhat-785013, Assam

Nationality : Indian

**Application details** 

a. Number : E9 OS96 18 319

b. Date of receipt : 09.05.2018

c. Date of acceptance

Crop (taxonomical lineage) : Rice (*Oryza sativa* L.)

Denomination : Dehangi (AAUDR 9313-14-3) IET-18243 IC- 574471

Type of variety : Extant (Notified)

Classification of variety : Typical

Previously proposed

Denomination : NA

Name of parental material : (Maibi (R) x CRM 49)

Source of parental material : Own germplasm Name of reference varieties : Maibi, CRM 49

Notification details : Notification no. S.O. 2805 (E). Dated 25.08.2017

#### Variety description:

| A. Grouping characteristics                                      | Remarks (measured values) |
|--|---------------------------|
| Basal leaf: sheath colour (Characteristics 2)                    | Green                     |
| Time of heading (50% of plant with panicles)(Characteristics 20) | Early                     |
| Stem length:(excluding panicles)(Characteristics 29)             | Short                     |
| Decorticated grain: length(Characteristics 54)                   | Medium                    |
| Decorticated grain: shape (in lateral view) (Characteristics 56) | Short bold                |
| Decorticated grain: colour (Characteristics 57)                  | Light red                 |
| Endosperm: content of amylose (Characteristics 59)               | Medium                    |
| Decorticated grain: aroma (Characteristics 62)                   | Absent                    |

#### **B.** Distinct characteristics of candidate variety:

**Dehangi (AAUDR 9313-14-3) IET-18243 IC-574471** has distinct characters as early time maturity (days), stem length (excluding panicles) short.

#### C. Distinct characteristics of reference varieties:

Maibi has distinct characters as medium time of maturity (days), long stem length (excluding panicles).

**CRM 49** has distinct characters as early time of maturity (days), very short stem length (excluding panicles).

<sup>\*</sup>DUS Characteristics of **Dehangi** (AAUDR 9313-14-3) IET-18243 IC- 574471

The convention application no. ---- NA----- in respect of the said variety has been filed on -----NA-----, in ---NA----.

Appropriate office for the opposition of proceeding under Rule 29, of the Protection of Plant Varieties and Farmers' Rights Rules, 2003 is Office of the Registrar, PPV&FR Authority, New Delhi – 110 012.

Passport data of the variety : ACG-16-II (Ajeet-16-II)

**Applicant** : Ajeet Seeds Ltd.

Address of the applicant

: 2<sup>nd</sup> Floor Tapadia Terraces, Adalat Road, Aurangabad-431001

Nationality of applicant

**Application details** 

a. Number

: N88 GH109 13 255 : 26.04.2013

b. Date of receipt

c. Date of acceptance :-

Crop (Taxonomical lineage) : Tetraploid Cotton (Gossypium hirsutum L.)

: Indian

Denomination : ACG-16-II (Ajeet-16-II)

Type of variety : New

Classification of variety : Transgenic (inbred parental line)

Previously proposed

Denomination : Not applicable

Name of parental material : ACG-1171 x ACG-512 BG-II

Source of parental material : Own germplasm
Name of reference varieties : PKV Rajat, Pratima

Variety description:

| A. Grouping characteristics                             | Remarks (measured values.) |
|---|----------------------------|
| Species   | G. hirsutum                |
| Leaf: Shape (Characteristics 8)                         | Palmate (Normal)           |
| Flower: Petal colour (Characteristics 15)               | Yellow                     |
| Flower: Pollen colour (Characteristics 19)              | Cream                      |
| Boll: Shape (longitudinal section) (Characteristics 23) | Elliptic                   |
| Fibre: Length (Characteristics 33)                      | Long                       |

### B. Distinct characteristics of candidate variety:

**ACG-16-II** (**Ajeet-16-II**) has distinguishing characters as cup leaf appearance, semi dwarf plant height, boll shape (longitudinal section) elliptic.

### C. Distinct characteristics of reference variety:

**PKV Rajat** and **Pratima** have distinguishing characters as flat leaf appearance, medium tall plant height, boll shape (longitudinal section) ovate.

## D. Date of commercialization of the variety

### E. Agronomic and Commercial attributes

| S. No. | Attributes  | Details          |  |  |
|--------|---|------------------|--|--|
| 1.     | Seed treatment rate (Timing/ Chemical)  | -                |  |  |
| 2.     | Growth habit (Determinate/Indeterminate)  | Indeterminate    |  |  |
| 3.     | Days to flowering/Anthesis: Early /Medium/ Late                                 | Medium (50 days) |  |  |
| 4.     | Days to maturity: Early /Medium/ Late   | 150 days         |  |  |
| 5.     | Recommendation production ecology (rainfed/irrigated/high/low/fertility season) | -                |  |  |

Appropriate office for the opposition of proceeding under Rule 29, of the Protection of Plant Varieties and Farmers' Rights Rules, 2003 is Office of the Registrar, PPV & FR Authority, New Delhi – 110 012.

Passport data of the variety: BHIMA SHAKTI (NRCRO-2/1156)Applicant: Indian Council of Agricultural ResearchAddress of the applicant: Krishi Bhawan, New Delhi-110001

Nationality of applicant : Indian

**Application details** 

a. Number : E1 AC1 14 984

b. Date of receipt : 25.04.2014

c. Date of acceptance : -

Crop (taxonomical lineage) : Onion (*Allium cepa* L.)

Denomination : BHIMA SHAKTI (NRCRO -2/1156)

Type of variety : Extant (VCK)
Classification of variety : Other (OPV)

Previously proposed

Denomination : Not applicable Name of parental material : Local collection

Source of parental material : Collected from village Otur, Maharashtra
Name of reference varieties : NHRDF Red (L-28), Arka Niketan, N-2-4-1

| 1.                | Days to maturity: Early/Medium/Late   | Late (125-  | 135 days after transplanting)  |  |  |  |  |
| 2.                | Production condition: Suitability area in the country   | Karnataka   | <b>Rabi:</b> Andhra Pradesh, Chhattisgarh<br>Karnataka, Madhya Pradesh<br>Maharashtra, Odisha,     |  |  |  |  |
|                   | : Time of sowing  | Seed show<br>October o  | d should be sown in the month of ober on raised beds. 45-50 days old                               |  |  |  |  |
|                   | : Irrigated/Rainfed   | seedlings are suitable for transplanting Irrigated, crop should be irrigated at a interval of 8-10 days during warm clima and 10-15 days in cool climate depending upon the soil type, drip/ sprinklimingtion about the applied at an interval of the cool of the spring of |  |  |  |  |  |
|                   |   |   |  |  |  |  |  |
|                   |   |   | should be applied at an interval<br>days on the basis of pan<br>on.                                |  |  |  |  |
|                   | : Low fertility/ High fertility of soil   | Fertile soit  | il, It can be cultivated in all oil but gives good yield on well extile loamy soil with pH of 6.5- |  |  |  |  |

7.5

| 3.  | Tolerance to adverse temperature/ frost/ & heat- sensitive/ tolerance | It grows well under mild climate without extreme heat or cold or excessive rain fall. The optimum temperature for vegetative phase and bulb development is 13-24°C and 16-25°C, respectively. It requires about 70% relative humidity for good growth |
|-----|---|---|
| 4.  | Tolerance to water stagnation: Sensitive/<br>Tolerant                 | Sensitive to water stagnation   |
| 5.  | Resistance/ Tolerance to pest/s                                       | Moderately tolerant to thrips and field tolerant to foliar diseases   |
| 6.  | Staking & pruning practices   | NA  |
| 7.  | Winter – spring cropping seasons type                                 | Rabi season (Winter)  |
| 8.  | Fruit yield q/ ac   | Marketable bulb yield 113 - 121 q/ac in rabi and 141- 161 q/ac in late <i>kharif</i>  |
| 9.  | Fruit yield/pl  | 60-80 g /pl i.e. 60-80 g average bulb weight  |
| 10  | Fruit quality and fruit firmness                                      | Attractive red with good firmness and quality   |
| 11. | Fruit picking schedule  | The crop is ready for harvest when the top turns yellow and neck-fall up to 70%. Harvested onion bulbs can be stored for 5-6 months if cured properly and stored in well ventilated storage structures  |
| 12. | Transport potential (Days)  | Good and bulb storability 5-6 months  |
| 13. | Unique selling propositions and optimal shelf-life (Days)             | Shelf life 5-6 months   |
| 14. | Any other relevant information specific to the variety/ hybrid        | Uniform neck fall during rabi and more than 70% neck fall during late <i>kharif</i> , bulb attains immediate attractive red colour after harvest.   |
